THE NAVY, AND THE AIR FORCE  
WASHINGTON, D.C. 29 November 1996

## ELECTRICAL EXTERIOR FACILITIES

	Paragraph	Page
<b>CHAPTER 1. INTRODUCTION</b>		
SECTION I-PRIMARY CONSIDERATIONS		
Purpose and scope .....	1-1	1-1
References .....	1-2	1-1
Application of codes and publications .....	1-3	1-1
Standards of maintenance .....	1-4	1-1
Maintenance responsibilities .....	1-5	1-1
Maintenance records .....	1-6	1-2
Priority and scheduling .....	1-7	1-2
SECTION II-SAFETY		
Minimizing hazards .....	1-8	1-3
Qualification of electric workers .....	1-9	1-3
Certification of electric workers .....	1-10	1-3
Public safety .....	1-11	1-3
Personnel safety .....	1-12	1-3
Live-line maintenance .....	1-13	1-3
SECTION III-AVOIDING PROBLEMS		
Operating conditions .....	1-14	1-4
Detecting potential trouble .....	1-15	1-4
Electrical connections .....	1-16	1-4
<b>CHAPTER 2. INSPECTION AND TESTS</b>		
SECTION I-PERFORMANCE		
Determining equipment condition .....	2-1	2-1
Reasons for inspections and tests .....	2-2	2-1
Associated test guidance and records .....	2-3	2-1
SECTION II-REQUIREMENTS		
Electric workers, instruments, and reports .....	2-4	2-2
Frequency of inspection .....	2-5	2-2
<b>CHAPTER 3. TRANSMISSION AND DISTRIBUTION SUBSTATIONS</b>		
SECTION I-GOVERNING CONSIDERATIONS		
Type of substations covered .....	3-1	3-1
Electrical system relationships .....	3-2	3-1
Substation safety concern .....	3-3	3-1
Substation security .....	3-4	3-1
Periodic inspections of substations .....	3-5	3-1
Visual inspections of substations .....	3-6	3-1
Infrared inspections of substations .....	3-7	3-1
SECTION II-STRUCTURE MAINTENANCE		
Importance of maintenance .....	3-8	3-2
Galvanized steel structure .....	3-9	3-2
Painted steel structures .....	3-10	3-3
Aluminum structures .....	3-11	3-3
Wood structures .....	3-12	3-3
Concrete for structure foundations .....	3-13	3-3
Structure connections and joints .....	3-14	3-3
SECTION III-SUBSTATION YARDS		
Provision of yards .....	3-15	3-3
Fences for yards .....	3-16	3-3
Warning signs at yards .....	3-17	3-3
Substation yards .....	3-18	3-3

	<i>Paragraph</i>	<i>Page</i>
<b>SECTION IV-INSULATORS</b>		
Function of insulators .....	3-19	3-4
Testsofinsulators .....	3-20	3-4
Inspection and repair of insulators .....	3-21	3-4
Cleaningofinsulators .....	3-22	3-5
<b>SECTION V-BUS STRUCTURES</b>		
Definitionofbus structures .....	3-23	3-7
Maintenance of bus structures .....	3-24	3-7
Cleaningofbus structures .....	3-25	3-7
Testingofbus structures .....	3-26	3-7
<b>SECTION VI-INSTRUMENT TRANSFORMERS</b>		
Definitions of instrument transformers .....	3-27	3-7
Short-circuiting dangers. ....	3-28	3-7
Maintenanceofinstrumenttransformers.. ....	3-29	3-7
Tests of instrument transformers.....	3-30	3-8
<b>SECTION VII-BUSHINGS</b>		
Definition of bushing .....	3-31	3-8
Type of bushings covered .....	3-32	3-8
Maintenanceofbushings .....	3-33	3-8
Bushingpowerfactortests .....	3-34	3-10
Bushing insulation resistance test. ....	3-35	3-12
<b>CHAPTER 4. OVERHEAD DISTRIBUTION</b>		
<b>SECTION I-ASSOCIATED OVERHEAD DISTRIBUTION GUIDANCE</b>		
Relevant overhead distribution guidance. ....	4-1	4-1
General construction guidance .....	4-2	4-1
<b>SECTION II-DEFINING VOLTAGE NOMENCLATURE</b>		
Voltage terminology .....	4-3	4-1
Voltagelevelclassification .....	4-4	4-1
Voltagedeliveryusage .....	4-5	4-1
Voltage origination point .....	4-6	4-1
Voltage terminology usage in this manual .....	4-7	4-4
<b>SECTION III-TYPES OF MAINTENANCE</b>		
Componentlinemaintenance .....	4-8	4-4
Other types of line maintenance .....	4-9	4-4
<b>SECTION IV-WOOD POLES</b>		
Lifespanofwoodpoles .....	4-10	4-4
Supplementary data on wood poles. ....	4-11	4-4
Wood pole record keeping and inspections .....	4-12	4-4
Wood pole maintenance crew instructions. ....	4-13	4-6
Wood pole spot inspection procedures. ....	4-14	4-6
Wood pole-by-pole inspection procedure. ....	4-15	4-7
Determination of wood pole adequacy .....	4-16	4-9
Woodpolereplacement .....	4-17	4-10
Woodpolereinforcement .....	4-18	4-10
<b>SECTION V-CROSSARMS, BRACES, AND PLATFORMS</b>		
Polecrossarms .....	4-19	4-11
Pole braces .....	4-20	4-12
Pole platforms .....	4-21	4-12
<b>SECTION VI-MAINTENANCE WOOD PRESERVATION</b>		
Initialwoodtreatment .....	4-22	4-13
In-place wood treatment above ground .....	4-23	4-13
Wood pole treatment at or below the ground line. ....	4-24	4-13
<b>SECTION VII-METAL POLES</b>		
Metalpoleusage .....	4-25	4-14
Distribution line metal poles .....	4-26	4-15
Transmission line metal towers .....	4-27	4-15
Pole-linemetalhardware .....	4-28	4-15
Paintingofmetalpoles .....	4-29	4-15

	Paragraph	Page
<b>SECTION VIII-CONCRETE POLES</b>		
Concrete pole overview .....	4-30	<b>4-15</b>
Concrete pole foundations .....	4-31	<b>4-15</b>
<b>SECTION IX-OVERHEAD OPEN WIRE CONDUCTORS</b>		
Overhead conductor construction. ....	4-32	<b>4-16</b>
Overhead conductormaterial .....	4-33	<b>4-16</b>
Overhead conductor covering .....	4-34	<b>4-16</b>
Overheadconductorsag .....	4-35	<b>4-16</b>
Overheadconductordamage .....	4-36	<b>4-17</b>
Overheadconductorrepairs .....	4-37	<b>4-18</b>
<b>SECTION X-OVERHEAD CABLE</b>		
Overhead cable construction .....	4-38	<b>4-18</b>
Overhead cable repair requirements. ....	4-39	<b>4-18</b>
<b>SECTION XI-CONDUCTOR CONNECTIONS</b>		
Overhead line conductor requirements. ....	4-40	<b>4-18</b>
Overhead line conductor splices. ....	4-41	<b>4-19</b>
Overhead line connections .....	4-42	<b>4-20</b>
Overheadline armor rods .....	4-43	<b>4-22</b>
<b>SECTION XII-POLE-LINE INSULATORS</b>		
Pole-line insulator related material. ....	4-44	<b>4-22</b>
Insulator operating performance.. ....	4-45	<b>4-22</b>
Types of pole-line insulators.....	4-46	<b>4-22</b>
Pole-line insulator class requirements .....	4-47	<b>4-24</b>
<b>SECTION XIII-GUYS</b>		
Guy functional requirements. ....	4-48	<b>4-25</b>
Guy strand .....	4-49	<b>4-25</b>
Anchor assemblies.....	4-50	<b>4-25</b>
Guy attachments .....	4-51	<b>4-26</b>
Guystraininsulators .....	4-52	<b>4-27</b>
<b>SECTION XIV-TREE TRIMMING</b>		
Tree trimming objectives .....	4-53	<b>4-29</b>
Tree trimming clearances and climbing space .....	4-54	<b>4-30</b>
Tree trimming tool .....	4-55	<b>4-31</b>
Typeoftreetricking .....	4-56	<b>4-31</b>
Tree trimming instructions.. ....	4-57	<b>4-32</b>
Treating a tree trimming wound .....	4-58	<b>4-32</b>
Treeremovalmethods.....	4-59	<b>4-32</b>
Tree killing chemicals .....	4-60	<b>4-33</b>
Poisonous plant .....	4-61	<b>4-33</b>
<b>SECTION XV-LIVE-LINE MAINTENANCE</b>		
Live-line maintenance requirements. ....	4-62	<b>4-33</b>
Categories of energized-line maintenance .....	4-63	<b>4-33</b>
Energized-linemethods .....	4-64	<b>4-34</b>
Live-line operations .....	4-65	<b>4-34</b>
<b>SECTION XVI-AERIAL LIFT REQUIREMENTS</b>		
Aerial lift construction .....	4-66	<b>4-35</b>
Aerial lift specifics .....	4-67	<b>4-35</b>
<b>CHAPTER 5. UNDERGROUND AND SUBMARIK E CABLES</b>		
<b>SECTION I-ASSOCIATED GUIDANCE</b>		
Relevant cable guidance .....	5-1	<b>5-1</b>
General construction guidance .....	5-2	<b>5-1</b>
<b>SECTION II-SAFETY PRECAUTIONS</b>		
Cablesafety .....	5-3	<b>5-2</b>
Structure safety .....	5-4	<b>5-2</b>
<b>SECTION III-INSPECTION</b>		
Frequency of underground system inspections. ....	5-5	<b>5-3</b>
Structureinspections .....	5-6	<b>5-3</b>
Cableinspections .....	5-7	<b>5-3</b>
Underground equipment inspections .....	5-8	<b>5-3</b>

	<i>Paragraph</i>	<i>Page</i>
<b>SECTION IV-MAINTENANCE AND REPAIR OF DUCT SYSTEMS</b>		
Structure maintenance and repair .....	5-9	5-4
Duct line maintenance and repair. ....	5-10	5-4
<b>SECTION V-CABLE FAULTS AND FAULT LOCATIONS</b>		
Cable faults.. ....	5-11	5-4
Visual methods of cable fault locating .....	5-12	5-5
Determining type of cable fault .....	5-13	5-6
Cable fault locating test methods .....	5-14	5-6
Simplifying cable fault locating .....	5-15	5-7
Cable fault locating equipment. ....	5-16	5-7
Tracing the cable fault signal .....	5-17	5-9
Selecting cable fault locating methods. ....	5-18	5-9
<b>SECTION VI-CABLE REPAIR</b>		
Undergroundcablerepairs .....	5-19	5-10
Submarinecablerepairs .....	5-20	5-10
Cablerepairsafety .....	5-21	5-11
Makingcablerepairs .....	5-22	5-11
Solid dielectric cable repairs .....	5-23	5-12
Other cable insulation and covering repairs. ....	5-24	5-12
Othercablecomponentrepairs .....	5-25	5-13
<b>SECTION VII-CABLE TESTING</b>		
Cabletests .....	5-26	5-14
Cable insulation resistance tests .....	5-27	5-14
Cable overvoltage tests .....	5-28	5-15
Cable power factor tests .....	5-29	5-16
Cablemoisturetests .....	5-30	5-17
Cabletestrecords .....	5-31	5-17
<b>SECTION IX-UNDERGROUND CORROSION CONTROL</b>		
Importanceofcorrosioncontrol .....	5-32	5-18
Types of corrosion .....	5-33	5-18
Prevention of corrosion .....	5-34	5-18
<b>CHAPTER 6. OUTDOOR LIGHTING</b>		
<b>SECTION I-LIGHTING AND CIRCUIT TYPES</b>		
Outdoorlightinguse .....	6-1	6-1
Types of lighting circuits .....	6-2	6-1
<b>SECTION II-MULTIPLE TYPE LIGHTING</b>		
Multiple type lighting system components .....	6-3	6-1
Luminaires .....	6-4	6-1
Lamp types.....	6-5	6-1
Luminaire components.....	6-6	6-2
Luminairemaintenance .....	6-7	6-2
Multiple type lighting controls .....	6-8	6-3
<b>SECTION III-LIGHT DISTRIBUTION</b>		
Light distribution standards.....	6-9	6-4
Roadway lighting .....	6-10	6-4
Floodlighting .....	6-11	6-4
Airfield lighting.....	6-12	6-5
<b>SECTION IV-SERIES TYPE AIRFIELD LIGHTING</b>		
Series type lighting system components .....	6-13	6-6
Series type lighting control and protection .....	6-14	6-6
Series type lighting power supply equipment. ....	6-15	6-6
Maintenance and troubleshooting series type lighting. ....	6-16	6-7
<b>CHAPTER 7. TRANSFORMERS AND REGULATORS</b>		
<b>SECTION I-CONSIDERATIONS</b>		
Voltage provisions covered.....	7-1	7-1
Defining transformer and regulator characteristics .....	7-2	7-1
Transformerclassification. ....	7-3	7-1

	Paragraph	Page
<b>SECTION II-MAINTENANCE</b>		
Transformer inspection and maintenance frequencies .....	7-4	7-2
Transformer inspections .....	7-5	7-3
Transformer testing guidance .....	7-6	7-6
Solid (winding) insulation tests .....	7-7	7-6
Transformer insulation liquids .....	7-8	7-7
<b>CHAPTER 8. OVERCURRENT PROTECTIVE AND SWITCHING DEVICES</b>		
<b>SECTION I-CONSIDERATIONS</b>		
Circuit interrupting devices .....	8-1	8-1
Location of protective and switching devices .....	8-2	8-1
Protective and switching device instruction manuals .....	8-3	8-1
Protective and switching device records .....	8-4	8-1
<b>SECTION II-FUSES</b>		
Fuse usage .....	8-5	8-1
Fuse operating safety considerations .....	8-6	8-2
Fuse replacement .....	8-7	8-2
Fuse maintenance .....	8-8	8-3
<b>SECTION III-SWITCHES</b>		
Switch usage .....	8-9	8-3
Operation of switches .....	8-10	8-4
Switch maintenance .....	8-11	8-4
<b>SECTION IV-CIRCUIT BREAKERS</b>		
Circuit breaker usage .....	8-12	8-6
Frequency of circuit breaker maintenance .....	8-13	8-6
Maintenance of nonmetalclad switchgear circuit breakers .....	8-14	8-7
Maintenance of metalclad circuit breakers .....	8-15	8-10
Maintenance of low-voltage power circuit breakers .....	8-16	8-12
Repair of circuit breakers .....	8-17	8-12
<b>SECTION V-MISCELLANEOUS DEVICES</b>		
Circuit switchers .....	8-18	8-14
Automatic circuit reclosers .....	8-19	8-14
<b>CHAPTER 9. OVERVOLTAGE PROTECTION</b>		
<b>SECTION I-CONSIDERATIONS</b>		
Overvoltage protection .....	9-1	9-1
Lightning-induced voltage surges .....	9-2	9-1
System operating voltage disturbances .....	9-3	9-1
Surge limiting protective device requirements .....	9-4	9-1
<b>SECTION II-SURGE (LIGHTNING) ARRESTERS</b>		
Definition of a surge arrester .....	9-5	9-1
Types of surge arresters .....	9-6	9-1
Classification of surge arresters .....	9-7	9-2
Maintenance of surge arresters .....	9-8	9-2
<b>SECTION III-OTHER DEVICES</b>		
Surge shielding devices .....	9-9	9-2
Surge capacitors .....	9-10	9-3
Surge protective gaps .....	9-11	9-3
Surge bypass resistors .....	9-12	9-3
<b>CHAPTER 10. GROUNDING</b>		
<b>SECTION I-CONSIDERATIONS</b>		
Basic principles of grounding .....	10-1	10-1
Grounding provisions .....	10-2	10-1
<b>SECTION II-MAINTENANCE</b>		
Grounding maintenance safety .....	10-3	10-1
Visual inspection of grounds .....	10-4	10-1
Galvanic corrosion of grounds .....	10-5	10-2
<b>SECTION III-TESTING</b>		
Ground resistance tests .....	10-6	10-2
Ground value measurements .....	10-7	10-2

	<b>Paragraph</b>	<b>Page</b>
Methods of measuring ground resistances .....	10-8	10-2
Methods of reducing ground resistances .....	10-9	10-4
<b>CHAPTER 11. RELAYS AND CONTROLS</b>		
SECTION I-RELAYS, ELECTRIC POWER APPARATUS		
Relay functions .....	11-1	11-1
Relay fundamentals .....	11-2	11-1
Relay construction .....	11-3	11-1
Relay maintenance periods .....	11-4	11-2
Relay general field inspection .....	11-5	11-2
Relay performance tests .....	11-6	11-3
Common electromechanical relay tests .....	11-7	11-3
Relay test equipment .....	11-8	11-4
Relay repairs .....	11-9	11-5
SECTION II-CONTROLS		
Control functions .....	11-10	11-6
Preventive maintenance and inspections of controls .....	11-11	11-7
Troubleshooting controls .....	11-12	11-8
<b>CHAPTER 12. INSTRUMENTS AND METERS</b>		
SECTION I-CONSIDERATIONS		
Electrical instruments .....	12-1	12-1
Electrical meters .....	12-2	12-1
Validity of electrical measurements .....	12-3	12-1
Fixed installations of instruments and meters .....	12-4	12-1
Portable instruments and meters .....	12-5	12-1
Inspections of instruments and meters .....	12-6	12-1
Tests of instruments and meters .....	12-7	12-1
SECTION II-PREVENTIVE MAINTENANCE		
Mounting of instruments and meters .....	12-8	12-2
Installation of instruments and meters .....	12-9	12-2
Maintenance of instruments and meters .....	12-10	12-2
SECTION III-CALIBRATION AND ADJUSTMENT		
Accuracy check of instruments and meters .....	12-11	12-2
Adjustment of instruments and meters .....	12-12	12-2
SECTION IV-REPAIRS		
Field repairs of instruments and meters .....	12-13	12-4
Shop repairs of instruments and meters .....	12-14	12-4
SECTION V-TROUBLESHOOTING		
Temperature influence on instruments and meters .....	12-15	12-5
Stray-field influence on instruments and meters .....	12-16	12-5
Calibration of instruments and meters .....	12-17	12-6
Other instrument and meter considerations .....	12-18	12-6
<b>CHAPTER 13. POWER CAPACITORS</b>		
SECTION I-CONSIDERATIONS		
Description of power capacitors .....	13-1	13-1
Types of power capacitors .....	13-2	13-1
Application of power capacitors .....	13-3	13-1
Permissible power capacitors dielectrics .....	13-4	13-1
SECTION II-MAINTENANCE AND INSPECTION		
Ensuring safe capacitor deenergizing .....	13-5	13-1
Power capacitor inspection schedule .....	13-6	13-1
Ventilation of power capacitors .....	13-7	13-1
Temperature influence on power capacitors .....	13-8	13-2
Exposure influence on power capacitors .....	13-9	13-2
Voltage influence on power capacitors .....	13-10	13-2
Fuses for power capacitors .....	13-11	13-2
SECTION III-TESTS		
Field tests for power capacitors .....	13-12	13-2
Terminal tests of power capacitors .....	13-13	13-3
Leak tests of power capacitors .....	13-14	13-3

	Paragraph	Page
<b>CHAPTER 14. STORAGE BATTERIES</b>		
SECTION I-CONSIDERATIONS		
Battery usage .....	14-1	14-1
Battery types .....	14-2	14-1
Battery safety .....	14-3	14-3
General battery maintenance procedures .....	14-4	14-4
SECTION II-FLOODED LEAD-ACID BATTERY MAINTENANCE		
Visual inspections of batteries .....	14-5	14-4
Measurements of battery condition. ....	14-6	14-6
Battery maintenance specifics .....	14-7	14-7
Testing of batteries.....	14-8	14-8
SECTION III-FLOODED LEAD-ACID BATTERY CHARGING		
Battery charging precautions .....	14-9	14-9
Battery charging considerations.....	14-10	14-9
Normal floating battery charge .....	14-11	14-10
Equalizing battery charge .....	14-12	14-10
SECTION IV-VALVE-REGULATED LEAD-ACID CELL BATTERIES		
Valve-regulated cell differences .....	14-13	14-11
Charging or valve-regulated cells .....	14-14	14-11
Temperature compensation for valve regulated cells .....	14-15	14-11
SECTION V-Nickel-cadmium cell batteries		
Description of nickel-cadmium batteries .....	14-16	14-12
Requirements for nickel-cadmium batteries .....	14-17	14-12
SECTION VI-CHECKS AND TROUBLESHOOTING		
Inspections of batteries .....	14-18	14-14
Troubleshooting batteries. ....	14-19	14-14
SECTION VII-BATTERY CHARGING EQUIPMENT		
Battery charging requirement .....	14-20	14-14
Rectifier type battery chargers .....	14-21	14-15
Accessories for battery chargers .....	14-22	14-15
Maintenance of battery chargers .....	14-23	14-15
SECTION VIII-PLACING A NEW BATTERY IN SERVICE		
Placing lead-acid batteries in service .....	14-24	14-16
Placing nickel-cadmium batteries in service. ....	14-25	14-16
Connections for batteries .....	14-26	14-16
SECTION IX-PUTTING A BATTERY IN STORAGE		
Battery storage procedure .....	14-27	14-17
Periodic check of a stored battery .....	14-28	14-17
SECTION X-REPLACEMENT AND DISPOSAL		
Replacement of a battery .....	14-29	14-17
Disposal of batteries.....	14-30	14-17
<b>CHAPTER 15. TOOLS AND EQUIPMENT</b>		
SECTION I-USE		
Electrical tools and equipment standards .....	15-1	15-1
Tools and equipment classification .....	15-2	15-1
Tools and equipment safe use .....	15-3	15-1
SECTION II-HAZARDOUS MATERIAL PROCEDURES		
Hazardous substances .....	15-4	15-1
Asbestos containing materials .....	15-5	15-1
Polychlorinated biphenyl (PCB) insulated equipment .....	15-6	15-2
Sulfur hexafluoride (SF <sub>6</sub> ) insulated equipment. ....	15-7	15-2
Chemicals used for outside maintenance. ....	15-8	15-2
SECTION III-PROTECTIVE EQUIPMENT		
Protective electrical rubber goods .....	15-9	15-2
Helmets for electrical work .....	15-10	15-3
Barrier protection for electrical work .....	15-11	15-3
Visual warnings for electrical work. ....	15-12	15-3
Protective grounding of deenergized lines. ....	15-13	15-3

	<i>Paragraph</i>	<i>Page</i>
<b>SECTION IV-CLIMBING EQUIPMENT</b>		
Body belts, climber straps, and safety straps .....	15- 14	<b>15-4</b>
Climber gaffs .....	15-15	<b>15-5</b>
Ladders for electrical work .....	15-16	<b>15-5</b>
<b>SECTION V-LIVE-LINE TOOLS</b>		
Certification of live-line tools .....	15-17	<b>15-6</b>
Care of live-line tools .....	15-18	<b>15-6</b>
Repairs of live-line tools. ....	15-19	<b>15-7</b>
<b>SECTION VI-HAND TOOLS</b>		
Handtoolsafety .....	15-20	<b>15-7</b>
General requirements for hand tools .....	15-21	<b>15-7</b>
Power tool electric shock hazard avoidance .....	15-22	<b>15-7</b>
<b>SECTION VII-ROPE</b>		
Care of rope.....	15-23	<b>15-8</b>
Splicing rope .....	15-24	<b>15-8</b>
<b>SECTION VIII-LARGE PORTABLE AND MOBILE EQUIPMENT</b>		
Large portable and mobile equipment covered. ....	15-25	<b>15-10</b>
Large portable and mobile equipment maintenance. ....	15-26	<b>15-10</b>
<b>SECTION IX-ELECTRICAL INSPECTING AND TESTING EQUIPMENT</b>		
Minimum facility field test equipment requirements. ....	15-27	<b>15-11</b>
Maintenance of test equipment .....	15-28	<b>15-11</b>
<b>CHAPTER 16. ELECTRICAL SERVICE INTERFERENCE</b>		
<b>SECTION I-DISTURBANCE PRODUCERS</b>		
Electrical power quality .....	16-1	<b>16-1</b>
Electromagnetic interference (EMI) .....	16-2	<b>16-1</b>
Harmonic interference .....	16-3	<b>16-1</b>
<b>SECTION II-ELECTROMAGNETIC INTERFERENCE</b>		
Electrical distribution system interference .....	16-4	<b>16-1</b>
Electrical noise origin .....	16-5	<b>16-1</b>
Electrical interference during bad weather conditions. ....	16-6	<b>16-3</b>
Methods of electrical interference location .....	16-7	<b>16-3</b>
Instrument requirements for checking electrical interference. ....	16-8	<b>16-3</b>
Communication interference from electrical lines. ....	16-9	<b>16-4</b>
<b>SECTION III-HARMONIC INTERFERENCE</b>		
Harmonic causing devices and their effects .....	16-10	<b>16-4</b>
Electric power quality responsibilities .....	16-11	<b>16-4</b>
Electric power quality data .....	16-12	<b>16-4</b>
Electrical distribution system interference .....	16-13	<b>16-5</b>
<b>CHAPTER 17. MAINTENANCE SCHEDULES</b>		
<b>SECTION I-CONSIDERATIONS</b>		
Maintenance planning.....	17-1	<b>17-1</b>
Maintenance priorities .....	17-2	<b>17-1</b>
<b>SECTION II-SCHEDULES</b>		
Maintenance frequency guides .....	17-3	<b>17-1</b>
Revisions to maintenance frequencies .....	17-4	<b>17-1</b>
<b>APPENDIX A-REFERENCES</b>		
<b>APPENDIX B-BIBLIOGRAPHY</b>		
<b>APPENDIX C-ADDITIONAL WOOD POLE DATA</b>		
<b>INDEX</b>		

**LIST OF FIGURES**

	<i>Page</i>
Figure 3-1. Connections for ungrounded specimen power factor test .....	3-12
3-2. Connections for hot- and cold-collar tests .....	3-12
4-1. Details showing various horizontal dimensions necessary to provide recommended climbing space .....	4-2
4-2. Details showing various vertical dimensions necessary to provide recommended climbing space. ....	4-3
4-3. Sample format for recording pole inspection and maintenance data. ....	4-5

	<i>Page</i>
4-4. Typical pole branch and key .....	4-6
4-5. The increment borer .....	4-8
4-6. Sealing a test hole with a treated wooden plug .....	4-8
4-7. Wood stub pole .....	4-11
4-8. Steelreinforcingforawoodpole.. ....	4-12
4-9. Nozzle for application of a compound preservative .....	4-14
4-10. Measuring sag on line conductors.. ....	4-17
4-11. Measuring sag on service drop conductors .....	4-17
4-12. Single-sleeve compression splice .....	4-19
4-13. Double-sleeve compression splice. ....	4-19
4-14. Automatictensionsplice .....	4-20
4-15. Clamp connectors .....	4-20
4-16. Internally-firedtapcomponents .....	4-21
4-17. Types of insulators commonly installed .....	4-23
4-18. Steepness and flatness limits for guy strands .....	4-25
4-19. Typesofpatentanchors .....	4-26
4-20. Loganchor .....	4-27
4-21. Wood-polepushbrace .....	4-28
4-22. Sideanchor .....	4-29
4-23. Self-supporting, hog-guyed pole .....	4-30
4-24. Recommended minimum clearances for tree trimming .....	4-30
4-25. Tree trimming to clear electric wires .....	4-31
4-26. Removing a limb overhanging wires. ....	4-32
5-1. Terminal equipment and cable connection diagrams .....	5-8
5-2. Cable fault waveform reflections .....	5-9
5-3. Insulation power factor equivalent circuit and vector diagram. ....	5-16
6-1. Light distribution patterns for roadway lighting. ....	6-5
<b>10-1.</b> Direct-reference or two-point ground test .....	<b>10-3</b>
<b>10-2.</b> Auxiliary ground method .....	<b>10-3</b>
<b>10-3.</b> Ground resistance measurement, three-point method. ....	<b>10-4</b>
<b>10-4.</b> Field setup and curve for fall-of-potential method .....	<b>10-5</b>
<b>10-5.</b> Methods of soil treatment for lowering of ground resistance. ....	<b>10-6</b>
<b>11-1.</b> Typical test connection for a nondirectional overcurrent relay .....	<b>11-3</b>
<b>11-2.</b> Typical test connections for directional overcurrent relays. ....	<b>11-4</b>
<b>11-3.</b> Typical test connections for a differential relay. ....	<b>11-4</b>
<b>11-4.</b> Typical test connections for reactance distance relays. ....	<b>11-5</b>
<b>11-5.</b> Typical test connection for a pilot wire relay .....	<b>11-6</b>
<b>12-1.</b> Method of connecting a phantom load for a field test, if on a single-phase, two-wire watthour meter .....	<b>12-3</b>
<b>12-2.</b> Method of connecting a phantom load for field test, if on a three-phase, three-wire watthour meter .....	<b>12-3</b>
<b>13-1.</b> Terminal-to-terminal voltage test circuit. ....	<b>13-3</b>
<b>13-2.</b> Terminal-to-case insulation test circuit .....	<b>13-4</b>
<b>14-1.</b> Battery warning sign.....	<b>14-2</b>
<b>15-1.</b> Methodsoffinishingropeends .....	<b>15-8</b>
<b>15-2.</b> Makinganeyesplice .....	<b>15-8</b>
<b>15-3.</b> Makingashortsplice.. ....	<b>15-9</b>
<b>15-4.</b> Making a long splice .....	<b>15-9</b>
<b>c-1.</b> Twelve-inch (300-millimeter) pole with 1-inch (25-millimeter) surface decay .....	<b>c-3</b>
<b>c-2.</b> Twelve-inch (300-millimeter) pole with 2-inch (50-millimeter) surface decay .....	<b>c-3</b>
<b>c-3.</b> Twelve-inch (300-millimeter) pole with 4-inch (100-millimeter) radial heart-rot .....	<b>c-4</b>

#### LIST OF TABLES

	<i>Page</i>
Table	
3-1. Infrared hot spot gradients .....	3-2
3-2. Cleaning ceramic insulators and bushings .....	3-6
3-3. Temperature correction factors for power factor .....	3-11
3-4. Insulation resistance tests on electrical apparatus and systems. ....	3-13
4-1. Sapwood thickness in poles. ....	4-8
4-2. Pole setting depth.....	4-10
4-3. Tiewirerequirements .....	4-24
4-4. Relation of the NESC voltage levels to ANSI C29 class ratings .....	4-24
4-5. Numberofguywireclamps.....	4-30
5-1. Typical power factor ranges for various cable insulating materials. ....	5-17
6-1. Floodlight beam descriptions.....	6-5
7-1. Transformer inspection and maintenance checklist .....	7-3

	<i>Page</i>
7-2. Insulation resistance conversion factors to 20°C .....	7-6
7-3. Satisfactory power factors .....	7-8
8-1. Troubleshooting chart for oil problems .....	8-12
8-2. Troubleshooting chart for power circuit breakers .....	
11-1. Typical laboratory relay test equipment .....	11-6
11-2. Troubleshooting chart for general control equipment .....	11-8
12-1. Troubleshooting chart for indicating instruments .....	12-6
12-2. Troubleshooting chart for recording instruments and meters .....	12-6
13-1. Maximum ambient temperatures for continuous operation .....	13-2
13-2. Capacitor bank oil switch maintenance .....	13-3
14-1. Battery room warning notice .....	14-2
14-2. Suggested test accessory list for battery maintenance .....	14-9
14-3. Equalizing charge .....	14-11
14-4. Charging of nickel-cadmium batteries .....	14-13
15-1. Suggested list of minimum facility-wide field test equipment .....	15-11
16-1. Harmonic distortion limits .....	16-5
17-1. Maintenance frequencies .....	17-1
